

Full Service Design Process

Every house has the potential to be your dream home, you just have to see the space from a different perspective. Our Full Service Design Package takes your needs and desires and transforms them into an executable plan with a few simple steps in 4-6 weeks.

Initial Consultation

Let's hear about your project! In person or virtual, we want to know everything - the style you love, your wants & needs, specific challenges, budget, etc. This is the time to make sure we're a good fit for one another.

Measurements & Photos

If necessary, we'll come to your home to make sure we have all the measurements and photos we need. We'll also document any existing pieces you want to reuse so you can see them in the final design.

Design Presentation

It's happening! Your house is becoming your dream home! We'll walk you through all aspects of the design and answer any questions you might have.

Final Design File

We'll compile your custom Design File that includes the finalized material boards, renderings, recommendations, timeline, budget and other information. Use this file to execute your design - it's time to start ordering!

Contact us!

Whether it's a call, text, email or even in person we're happy to hear from you! We'll send over a brochure that details our packages and set up a meeting.

Design Agreement

We'll come up with a proposal that includes the project's scope of work, your budget, design fees and a project timeline.

Designers at Work!

This is when the magic really starts! We communicate closely with you to refine the design, using that information to create material boards, renderings, layouts and select furnishings, finishes, accessories. We'll help you make preliminary decisions to help guide the design direction.

Revisions as Needed & Specifications

We're confident you'll love the design but if there are any parts you'd like to change, let us know! Once the final design has been approved, we'll create the specifications that you'll use to order everything and bring the design to life.
